Dr. S. Ramo

23 June 1956

US Ballistic Missile and Space Center Facility — WDD, WDT
Presentation for Mr. Quarles

General Schriever has evidently promised to help Gen Davis present Hollcmnn facility requirements to Mr. Quarles after July 1956.

R-W work with Hollcmnn has a direct bearing on the formulation of such a briefing, but unfortunately such work will probably be completed on a time-scale inconsistent with putting such a briefing together. Despite this fact I suspect R-W should provide the primary input.

I would like to talk to you regarding this subject, and if acceptable to you would suggest Col Ely as the contact point between R-W and Hollcmnn with regard to the collection of this material. I suggest Col Ely because if WDD is to give such a presentation, the final work will have to be performed by a WDD person, for General Schriever.

CHARLES H. TERHUNE, JR.
Colonel, USAF
Deputy Commander
Technical Operations
